

Road star, Royal star, V star - LED retro (tail light)

Black wire - ground

Orange wire – running light

Red wire – Brake

Note: The base does not have to be removed from the fender.

Installation:

- Remove the red lens.
- Remove light bulb.
- Insert the bulb base from the LED replacement board. (Push in and turn clockwise). The base only goes in one way because of the offset posts on the base.
- Install the LED light into place. The top two factory screws will be used to secure the LED light in place.
- Replace red lens.

NOTE: These LED lights are not DOT approved and recommended for show or off road use only.
